Personal Information

Family name: Kahouei

First name: Mehdi

Date of birth: 09/17/1967

Place of birth: Tehran

Address: Allied health department, allied medical sciences school

Tel: +9823133617446

E-Mail: mkahouei@yahoo.com

Academic Information:

Academic Degree: Professor

Post graduate: Health information management

Field of study: information sciences and systems

Present status: information sciences and systems

Work experiences: 32 years

Teaching Experiences: 32 years

Field of interest for research: Behavior and information needs, Medical and nursing informatics, Information systems

Research Experience

- Application of information resources in evidence-based medicine(EBM) and affecting factors in using of them among physicians, residents and medical students in affiliated hospitals of Semnan university of medical sciences.
- Prioritizing of the Information needs and Information searching behavior of Patients suffering from cardiovascular disease
- Work and family conflict between health information management staff and faculties in affiliated hospitals of Semnan university of medical sciences
- Survey of work ethics and factors impacting on it in health information technology staffs who working in affiliated centers of Semnan university of medical sciences
- Relationship between the components of job satisfaction and creativity in Health Information Technology employees of affiliated hospitals of Semnan University of medical sciences
- the use of social media and communication in health area among students of Semnan University of Medical Sciences
- Relationship between job stress and self efficacy among nursing staffs of affiliated hospitals of semnan university of medical sciences
- staffs' attitude towards eLearning in based on technology acceptance model in Semnan university of Medical sciences
- Nursing staffs' attitudes towards patient portal
- The feasibility of telemedicine implementing in Semnan University of Medical Sciences
- The survey of virtual learning pathology from faculties' point of reviews of Semnan university of medical sciences

- Assessing the status of students' readiness towards e- learning in of semnan university of medical sciences

Publications:

Views, behavior and satisfaction of the nurses and other hospital ward personnel about the effectiveness of computer systems of hospital information on caring process, M Kahouei, M SOLEYMANI, S Ghazavi, SA Aalaei, HEALTH INFORMATION MANAGEMENT 4 (2), 193-202

The evaluation of the compatibility of electronic patient record (EPR) system with nurses' management needs in a developing country, M Kahouei, JM Zadeh, PS Roghani, International journal of medical informatics 84 (4), 263-270

Nurses' perceptions of usefulness of nursing information system: module of electronic medical record for patient care in two university hospitals of Iran, M Kahouei, HB Mohammadi, HA Majdabadi, M Solhi, Z Parsania, Materia socio-medica 26 (1), 30

Evaluation of organizational support for use of online information resources in nursing care. M Kahouei, Z Ahmadi, F Kazemzadeh. Journal of evidence-based medicine 7 (4), 252-257

The impact of IT infrastructures on Iranian nurses' and students' health information-seeking strategies

M Kahouei, H Babamohamadi, S Sadat Ghazavi shariat panahi, Program 47 (4), 369-383

Experiences of nurses in impact of nursing information system on nursing services efficiency. M KAHOU EI, H BABAMO HAMADI, S BAYAT, S FOOLADIAN, HEALTH INFORMATION MANAGEMENT 10 (230), 1-12

Understanding of medical students' information needs in emergency cases: the implications for emergency management in teaching hospitals of Iran. M Kahouei, R Eskrootchi, FEF Azar. Iranian Red Crescent Medical Journal 13 (1), 60

The assessment of strategic plans of a developing country for solving barriers to access evidence-based information sources. M Kahouei, S Alaei, SSGS Panahi, JM Zadeh. Journal of evidence-based medicine 7 (1), 45-51

Factors affecting information technology acceptance in clinical settings from Nurses' perspective. M Kahouei, H Babamohamadi, Journal of Payavard Salamat 7 (4), 262-277

THE IMPACT OF HOSPITAL INFORMATION COMPUTERIZED NETWORK ON CLINICAL DEPARTMENTS CURATIVE SERVICES PERSONNEL.(SEM NAN UNIVERSITY OF MEDICAL SCIENCES-AMIR AL-MOMENIN HOSPITAL). AF EBADI, M KAHOU EI, M SOLEYMANI, S Ghazavi, AA Ghods,Journal of Health Administration 11 (31), 7-16

A study on the Rate of Knowledge, Attitude and Practice of Medical Students towards Method of Medical Records Documentation at Mazandaran University of Medical Sciences . A Balaghafari, H Siamian, K Aligolbandi, M Zakeezadeh, M Kahooei, Journal of Mazandaran University of Medical Sciences 15 (49), 73-80

Strategy of health information seeking among physicians, medical residents, and students after introducing digital library and information technology in teaching hospitals of Iran. M kahouei, S Alaei, SSG Shariat Panahi, JM Zadeh. Journal of evidence-based medicine 8 (2), 91-97

Evidence-based information resources management skill among Iranian residents, internship and nursing students in urgent care. M Kahouei, M Firuzeh, S Alaei, SS Ghazavi Shariat Panahi, Scientific Research and Essays, 4708-4713

Iranian clinical staff's priorities towards the roles of health information technology and management in clinical governance.M Kahouei, P Seyed Roghani, HAM Abadi. Journal of Engineering and Applied Sciences, 230-234

Understanding information needs of nursing students in emergency medicine education. M Kahoe, S Alae. Koomesh, 155-162

The Survey of Residents and Radiologists' Attitudes about Access to Patient Information in Teleradiology in Iran. M Kahouei, M Karimi, SS Ghazavi Shariat Panahi, M Malekzadeh. Journal of Engineering and Applied Sciences 7 (2), 155-158

Mental health and coping styles in families of epileptic patients in Iran. K Mehdi, S Mahboobe, P Zeinab, A Zahra, K Farzane, A Safollah,The Social Sciences 7 (1), 130-133

The survey of job injuries and mental health disorders among clinical nurses from ergonomics aspect. F Kazemzadeh, Z Ahmadi, F Mehri, Z Parsania, S Roghani Pano, S Alaei, Research Journal of Medical Sciences 5 (5), 289-293

Role of alteration in Treg/Th17 cells' balance in nephropathic patients with Type 2 diabetes mellitus

S Abouzeid, N Sherif

Electronic physician 7 (8), 1613

The prioritization of information needs related to health among women who had undergone surgery in obstetrics and gynecology department in hospitals of Semnan, Iran, 2012-2013. M Kahouei, F Samadi, M Gazerani, Z Mozafari. The Iranian Journal of Obstetrics, Gynecology and Infertility 16 (63), 8-15

Nurses' perception about the effect of hospital information system in Iran. K Mehdi, HA Majdabadi, K Mozghan, GSPS Sadat, AA Saedeh, International Information Institute (Tokyo). Information 15 (4), 1823

Use of information resources for clinical decisions by nurses and nursing students, and its barriers after Introducing Information Technology. M Kahouei, H Babamohamadi, S Sadat Ghazavi Shariat Panahi Iranian Journal of Medical Education 13 (3), 244-253

A survey on medical student's information needs in Iran University of Medical Sciences (IUMS) for emergency clinical education. R ESKOROUCI, AF EBADIFARD, AH ABOU, M Kahouei. Journal of Health Administration 11 (33), 69-76

Health information technology and health care activists: Where is the place of Iranians? M Ghoochani, M Kahouei, M Hemmat, HA Majdabadi, A Valinejadi. Electronic physician 9 (10), 5657

A survey on barriers to access health information resources of nursing care from the perspectives of nurses and nursing students. M Kahouei, H Babamohammadi, SGS Panahi, J Mehdizadeh. Journal of Health Administration (JHA) 15 (49)

Hierarchy of Iranian parents' information needs and social seeking behavior of infants suffering blood disease, M Kahouei, F Kazemzadeh, J Mahdi Zadeh, Z Ahmadi. Social Sciences (Pakistan), 336-342

Concerns and hopes about outsourcing decisions regarding health information management services at two teaching hospitals in Semnan, Iran. M Kahouei, M Farrokhi, ZN Abadi, A Karimi. Health Information Management Journal 45 (1), 36-44

Medical assistants and students' knowledge and practice rate of Semnan Medical Sciences University regarding documentation of cares provided to patient from medicolegal aspect. AM Abadi. IJFM 13 (2), 92-97

The rate of knowledge and practice of medical students and residents of Semnan medical sciences university to provided care documentation from medicolegal aspect. M Kahouei, F Sadooghi, H Asgari Majd Abadi. *Medico legal Journal* 13 (2), 92-7

Survey effect of education based on health promotion model on health volunteer's empowerment of health service in preventing of Osteoporosis. H Babamohammadi, MHAD ASKARI, M Kahouei. *DANESHVAR MEDICINE* 13 (59), 11-18

Medical Assistants And Students Knowledge And Practice Rate Regarding Documentation Of Care Provided To Patients From Medical Discipline Aspect (Semnan Medical University; 2000 ... M Kahouei, AALI TAHERIAN, H Babamohammadi, S Kaghobadi. *JOURNAL OF BABOL UNIVERSITY OF MEDICAL SCIENCES (JBUMS)* 5 (2), 67-73

Iranian nursing students' skills in meeting their information needs? M Kahouei, M Firozeh, Z Parsania, S Alaei, F Aziz Zadeh, ... *Information (Japan)*, 657-666

Survey of the quality of nursing practice of documentation to determine their training needs and providing them with a program of quality promotion. MHAD ASKARI, M Kahouei. *JOURNAL OF SABZEVAR UNIVERSITY OF MEDICAL SCIENCES* 10 (430), 61-69

Nurses' perceptions of the efficiency of intensive care information system: A Qualitative Study

M Kahouei, H Babamohamadi, H Jamal, A Naeigy, A Bash Ghareh. *Journal of Qualitative Research in Health Sciences* 3 (2), 115-125

Nurses' perception about the effect of hospital information system in Iran. M Kahouei, M Karimi, SS Ghazavi Shariat Panahi, F Kazemzadeh, ...*Information*, 1823-1832

How Do Medical Students Manage Their Information Needs in Unscheduled and High-Acuity Environments? K Mehdi, E Roghayeh, EFA Farbod, R Sajedi. *Annals of Behavioral Science and Medical Education* 16 (2), 20-24

Survey on the effect of the quality of nursing practice on documentation to determine their training needs and providing them with a program of quality promotion. H Majd Abadi, M Kahooei. *Journal of Sabzevar University of Medical Sciences* 10 (4), 61-9

The quality survey of medical students and assistants practice in history taking and physical examination of patients. M Kahooei, H Askari Majdabadi. *koomesh* 3 (1), 45-52

The relationship of job stress with self-efficacy among nurses working in hospitals of Semnan University of Medical Sciences, Iran. J Mahdizadeh, F Daihimfar, M Kahouei. *Biosci Biotech Res Comm* 9 (3), 435-8

Seeking Information Resources by Medical Students in Emergency Medicine. H Abolhassani, F Ebadifard Azar, R Scroochi, M Kahouei. *Iranian Journal of Medical Education* 10 (1), 37-44

Health information technology in ambulatory care in a developing country. G Deimazar, M Kahouei, A Zamani, Z Ganji. *Electronic physician* 10 (2), 6319

The approach and function of university students to research process: A cross sectional study. H Babamohamadi, F Daihimfar, H Chahrpashloo, M Hamidi, M Kahouei. *Koomesh*, 412-420
